Dear Senator:

Recent news media reports have brought about the picture of the State Department and even the CIA intervention into the Italian authorities investigation on KGB involvement in the assassination attempt on the life of John Paul II. Just few days ago The Fort Worth Star Telegram had a front page report proclaiming that the CIA has issued an informal report that Soviet KGB has not been involved in a murder attempt on life of a Polish pope.

It is inconceivable to me that our government would even consider such an action, not to speak of implementing it.

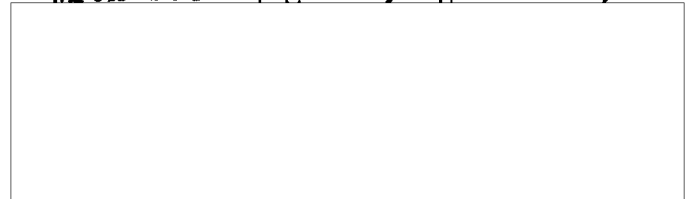

But it does not surprise me. It is a fact according to "Newsweek" article, that the State Department has known all the details of Jaruzelski's action on Dec. 13, 1981 a few weeks in advance.

The Polish colonel who now lives in the United States has provided the State Department with complete list of action planned for Dec. 13 by the Soviet KGB general in Poland Mr. Jaruzelski.

The US authorities have decided not to inform about it neither Polish pope or Polish Episcopate, nor the Leadership of Solidarity. As a friend of People of Poland, please start the official inquiry into these two matters.

I am sure that we all must be concerned when our government brakes any moral principles.

With best regards, A
